EDUCATION

Bachelor of Engineering (B.E) in **Computer Science & Design** — Sep 2024 - Expected Mar 2028

Atria Institute of Technology — Bengaluru, IN

EXPERIENCE

ITC Limited - Foods Division — Bengaluru, IN

Summer Intern - Technology — Jul 2026 – Present

- Conducted **30+ factory worker and 10+ senior management interviews** and analyzed **30K+ inventory records** to uncover operational patterns, material handling behaviors, and usability barriers across heavy and lightweight goods workflows; translated findings into a **simplified, low cognitive load inventory platform** tailored to semi skilled factory workers.

genzi.ai — Remote, Singapore

Software Development Intern — Dec 2025 – Mar 2026

- Designed and shipped **PropPanda**, an AI-powered real estate platform for **8+ Dubai-based clients**, collaborating with engineers to translate agent and broker workflows into intuitive experiences for **5K+ property listings and leads**, with conversational AI simplifying enquiries, lead qualification, follow ups, and visit scheduling.

UX projects

CIA Labs **- UX Research & Interaction Design:** An interactive, QR-powered campus engagement platform enabling students to discover peers' hobbies, connect through social interactions, and participate in gamified challenges.

- Conducted **60 user interviews** across graduating years to uncover student engagement patterns, usability expectations, and accessibility needs; synthesized research insights into **user journeys** and design decisions for an interactive campus social discovery platform.
- Designed **10+ end-to-end user flows** for a QR based social discovery experience, enabling peer interactions through hobby guessing, QR scanning, and gamified rewards; **prioritized inclusive UX** for students with disabilities and supported a platform handling **4K+ concurrent users** on event day.

Lluna **- UX Research & Product Design:** An AI powered academic management ecosystem that digitizes student marks, attendance, evaluation room allocation, and faculty workflows through interconnected platforms for faculty, students, and administrators.

- Conducted **100+ faculty surveys and interviews** to identify workflow bottlenecks, cognitive overload, and usability challenges in paper based academic administration; translated findings into **user requirements and streamlined workflows.**
- Designed and iteratively validated interface layouts using **AI assisted A/B testing**, contributing to the rapid development and deployment of an integrated ecosystem spanning faculty, student, and HOD dashboards, now used by **3K+ college students and faculties.**

RNK Games **- TV Gaming Interface Design :** A minimalist, controller first gaming dashboard designed around the TV experience, prioritizing game discovery and quick access to recently played titles while keeping secondary information and settings unobtrusive.

- Designed a **minimalist**, **controller first TV gaming interface** prioritizing game discovery and recently played titles, with contextual navigation and unobtrusive settings to reduce **visual clutter and cognitive load.**

LEADERSHIP

Google Crowdsource Learning Community — Atria IT, Bengaluru, IN

Student Community Lead — Jul 2025 - Present

- Built a **400+ contributor community** and led **data annotation and LLM evaluation workflows**, earning recognition as a Global Top Contributor from Google for exceptional community leadership and technical impact.

Google Developer Group (GDG) on Campus — Atria IT, Bengaluru, IN

Co-organizer & Technical Lead / Vice President — Sep 2025 - Present

- Scaled the community to **1.5K + members** (650% growth) through **20+ technical event**s covering Google Cloud, Generative AI, Web3, and Android, driving stronger industry engagement, hands on learning, and sustained community participation.

SKILLS

UX Research & Strategy: User Interviews, Surveys, Usability Testing, A/B Testing, User Journey Mapping, Accessibility Research, Visual Design

Design: Figma, FigJam, Wireframing, Prototyping, User Flows, Interaction Design, Information Architecture, Design Systems, Motion Design

Technical: HTML, CSS, JavaScript, React, Next.js, Git/GitHub, Responsive Design

ACHIEVEMENTS & CERTIFICATIONS

- **3rd Place, E-Summit'22 Hackathon** — **IIT Roorkee** (Mar 2022): Built a web platform forecasting technological and scientific advancements.
- **Best Project Award** — Rotaract Club, Atria IT (Feb 2026): Built a Gemini powered code editor, onboarding 1K+ freshers into web dev.
- Research Methodology – **IIT Madras** (Oct 2026) | Google User Experience Research — Research Participant
